

ABOUT SHORTCUTS

Shortcuts may seem like a good idea to get to places quickly, except if they are unsafe. Back alleys, construction areas, garbage dumps, vacated lots, drainage areas and culverts are **BAD** short cuts. Parks, Side streets, and any where that is bright and has lots of people around is a **GOOD** shortcut.

WEAR BRIGHT REFLECTIVE CLOTHES

Be sure to wear bright easy to see clothing, especially if walking at night. Reflective clothing is also a good idea.
